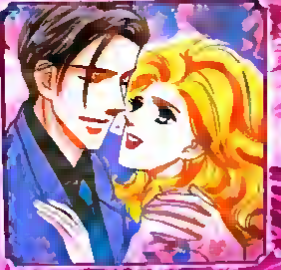
The Wrong Mirror



How happy I would be...
if he loved both me and this baby
I'm having useless thoughts
Ever since that day, Hal has been very distant

Is there a problem with my baby?
Why?
No, your baby is fine
Examination at University Hospital's Gynecology section?
I just want to examine it with advanced ultrasonography euipments,
there's something that i want to check.

Karen, what's wrong? You look pale..
Hal.. how the baby..
Calm down, talk slowly
I didn't do anything out of norm,
I followed every instruction given by the doctor..
hiks hiks
I understand,
I'll accompany you to the hospital later

Good night
If you don't eat anything
Please eat.. It's not good for your body.
I don't want to be alone
Tonight, please saty with me,
Hal..

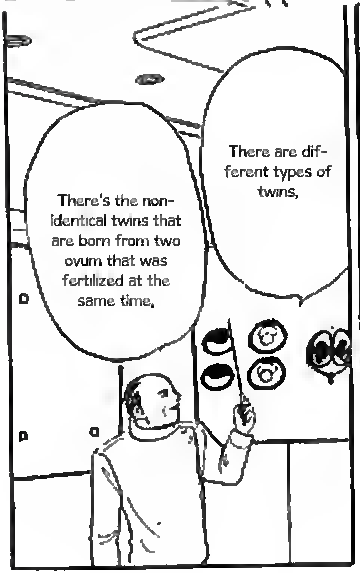
Hal didn't ask me anything
He just hugged me gently

You've been avoiding me all this time...
That...
he he
Is because you're pregnant
I'm not confident that I'll be able to control myself
Because of fear, I don't dare to approach you.
Even right now, I'm feel very nervous

All the tension between us just disappeared
My chest is filled by breathing the warmth of my beloved.

Then, on the
when the test
results came
out.
Are you the
Chissolm cou-
ple?
Pleasure to
meet you
My name is Dr
Grayson, a research-
er on twins at the
Sydney University
He the reseacher
who's collaborating
with me, He's one of
the top 5 gynecolo-
gists in Australia.
This is my friend,
Professor Martin
Bellamy

First we wanted to let you know that.... you're having twins.
Twins!?
Then we got some more shocking results from the tests.
This is a very rare special case.

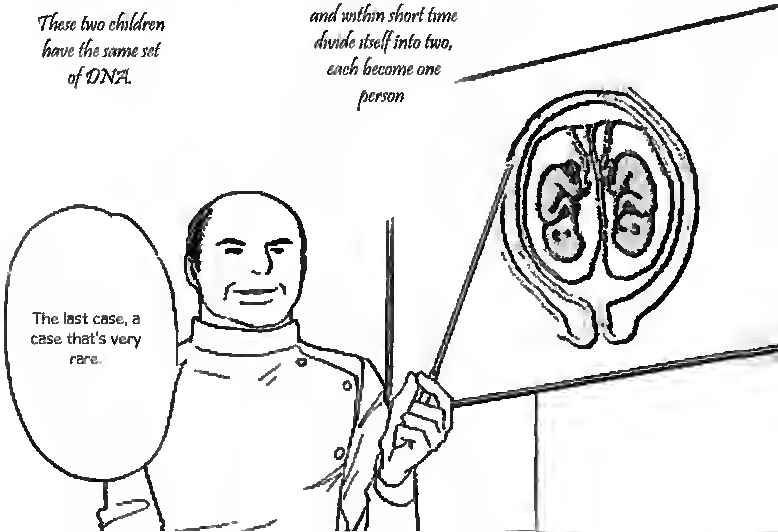


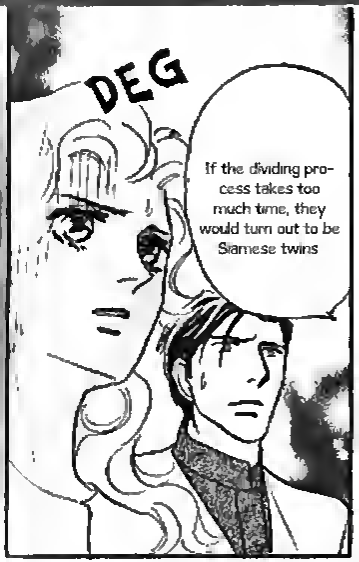
There are different types of twins,
There's the non-identical twins that are born from two ovum that was fertilized at the same time,

Then identical twins,

Originated from one ovum that is fertilized and within short time divide itself into two, each become one person

These two children have the same set of DNA.

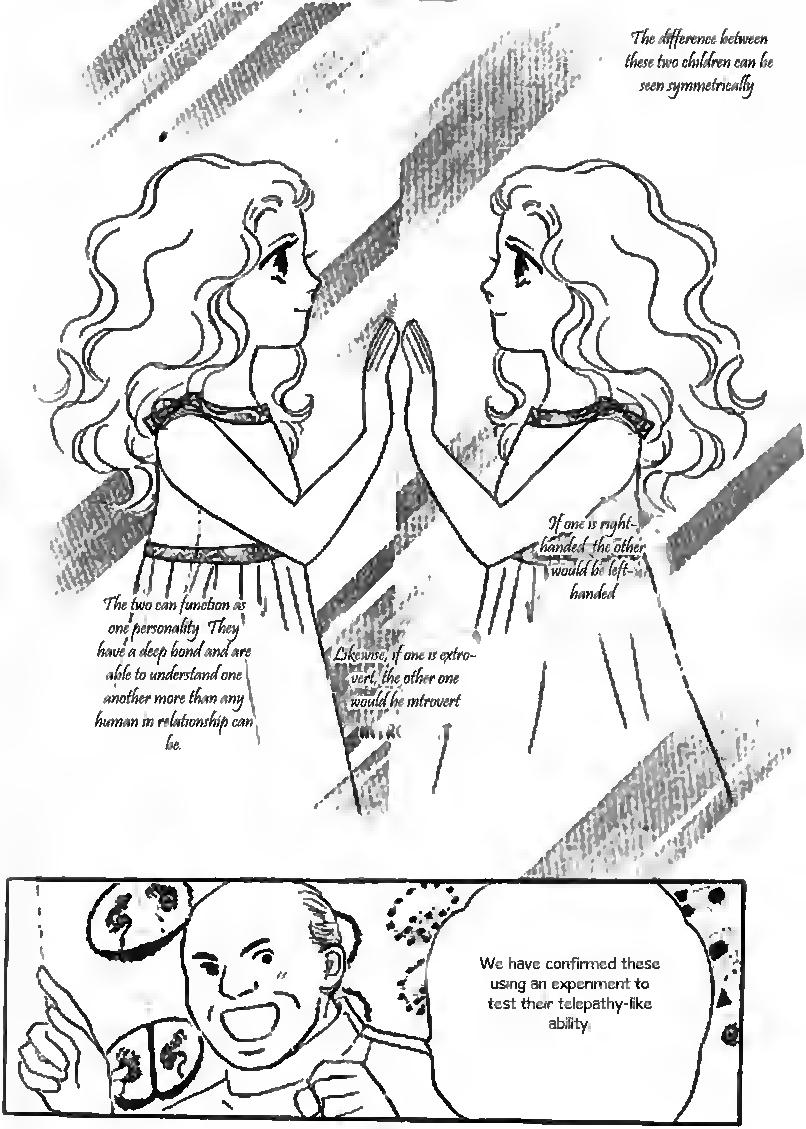




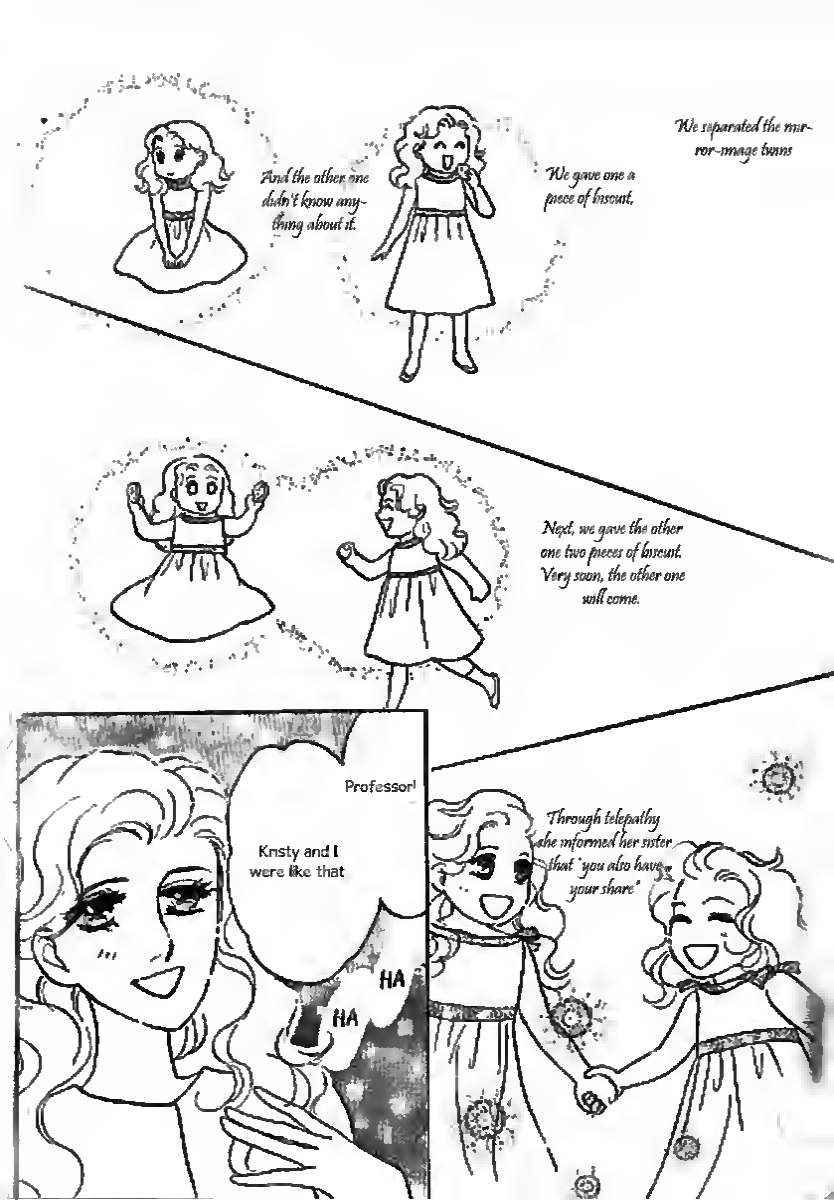
The ovum that initially divide itself and then each has the trait of right-handed and left-handed,

But, if during that short moment the ovum get seperated, they would be mirror-image identical twins

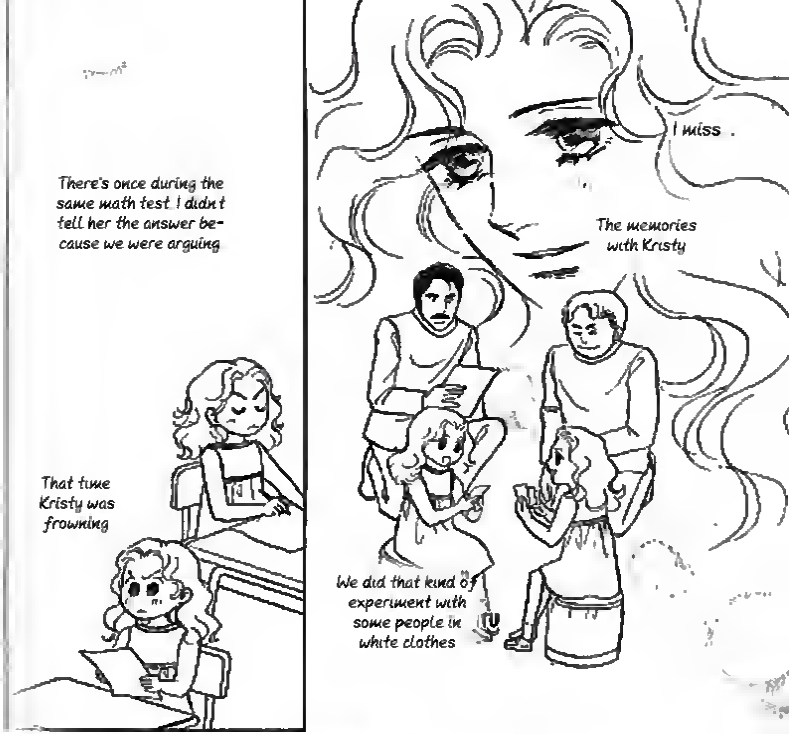
There's a high chance the twins your wife is carrying would be this type as mirror image twins.
Actually, Mr Chissolm,
For more than 40 years, we've been researching on this type of twins
Doctor! please explain to us in more details!
What is wrong with our twins?
That is...
Only the sense that these two kids wil be special
I never said there was something wrong with them



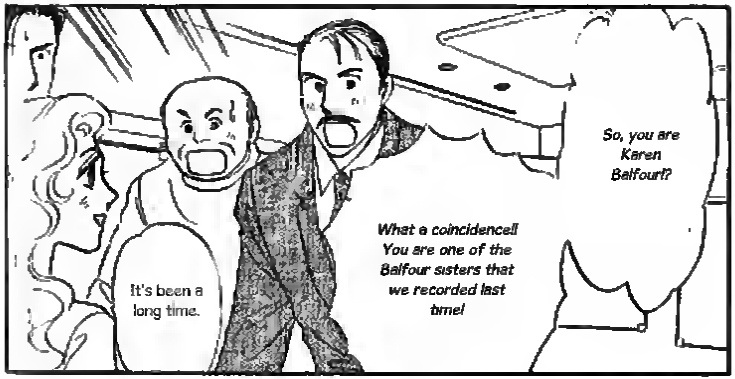
The difference between these two children can be seen symmetrically
If one is right-handed the other would be left-handed
The two can function as one personality. They have a deep bond and are able to understand one another more than any human in relationship can be.
Likewise, if one is extrovert, the other one would be introvert
We have confirmed these using an experiment to test their telepathy-like ability.



We separated the mirror-image twins
We gave one a piece of biscuit.
And the other one didn't know anything about it.
Next, we gave the other one two pieces of biscuit. Very soon, the other one will come.
Through telepathy she informed her sister that 'you also have your share'
Professor!
Kristy and I were like that
HA
HA



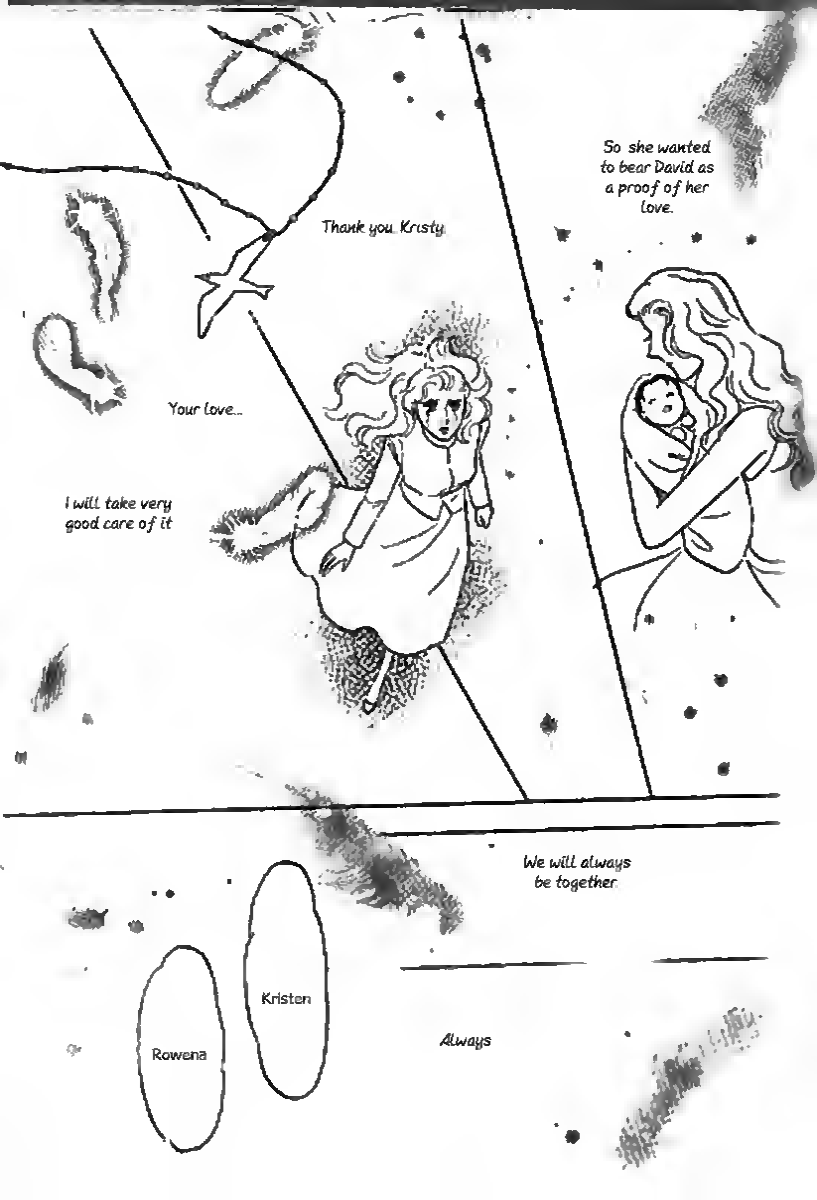
There's once during the same math test I didn't tell her the answer because we were arguing
That time Kristy was frowning
I miss .
The memories with Kristy
We did that kind of experiment with some people in white clothes



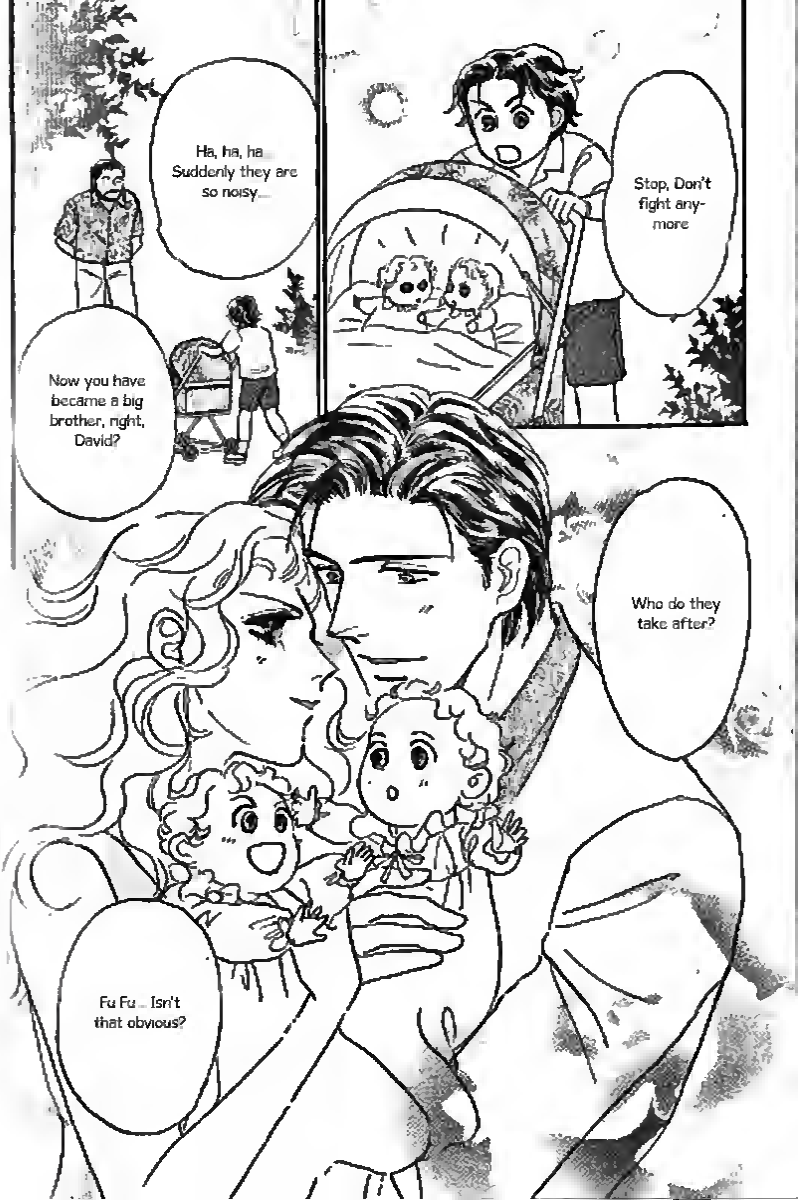
So, you are Karen Balfour!?
What a coincidence!! You are one of the Balfour sisters that we recorded last time!
It's been a long time.

What a coinci-dence!!
This is a miracle!
You, one of the mirror-image twins is pregnant with twins that are also mirror-image!!
That's great
If you think about it now, maybe , Kristy planned everything
One day we would fall in love with each other ..

I thought it was just her excuse to avoid marrying me
That time, I didn't completely understand what Kristy meant
Ha!... The one you are looking for isn't me.
I'm just an image of that mirror
But after I meeting you, I understand
Despite that, Kristy really loved you
She already felt that the one that can make me happy is her sister
Karen that is completely opposite with her



So she wanted to bear David as a proof of her love.
Thank you Kristy
Your love...
I will take very good care of it
We will always be together
Kristen
Rowena
Always



Ha, ha, ha... Suddenly they are so noisy...
Stop, Don't fight anymore
Now you have became a big brother, right, David?
Who do they take after?
Fu Fu... Isn't that obvious?
